

What is transmitted is the quality of sunlight
of a particular hour of our dream :
awakening

The ear-whispered teachings are over the counter now :
not what we know but
WHO WE ARE
all together now
ALL TO GET HER NOW
to gather to get her in formation

Geese travel north in summer south in winter
no mads in formation

LOVE AS INFORMATION :
plant these seeds under this moon
brew these leaves when stomach sick
build here like this facing east

Listen to the silence
in which these words
arise & pass
Be aware of being the space
in which all things
arise & disappear

Words are a coming into the world
And, you, do not be deceived

The only thing I can communicate to you
is this moment in your life
which I cannot possibly know

Listen to the silence speak

Don't take my word for it
